Dear Friends,

Greetings from Team **OM**

Entire humanity is facing the toughest time of the century i.e. **COVID-19**. We all are optimistic to find a solution soon.

It becomes more imperative to focus on **Positivity** and look for the “**Light ahead of Tunnel**”. Sharing practical experiences mutually is one such thought which not only enriches all of us but also helps us to find positivity.

OM_{6.0} is designed to address one of the most important issues faced by all of us i.e. **Complications in Head & Neck Oncology**. We will have weekly sessions of 2 hours each dedicated to specific issues. The objective is to learn prevention as well as handling complications in our day to day practice from Experts.

Meanwhile let me **wish you & family healthy & safe times** ahead.

Stay Safe, Stay Healthy as you are a very valuable asset to the entire society.

Warm Regards,

Dushyant Mandlik | Daxesh Patel
