# HCG CANCER CENTRE, AHMEDABAD

**Health Care Global (HCG)** has started a Comprehensive Cancer Centre in partnership with **Aastha Oncology Associates** at Science City Road, Ahmedabad which is the first of its kind in the state of Gujarat. It has all the facilities and departments under one roof – Surgical, Radiation and Medical Oncology apart from Radiology and Histopathology

## **Surgical Oncology**

The Surgical Oncology services will be provided by **Aastha Oncology Associates** which is a group of highly qualified, trained and experienced Surgical Oncologists with over 20 yrs of experience. The group focuses on subspeciality and Team approach consistently giving good results in line with the leading International Cancer Institutes offering better Quality of Life to cancer patients with consideration for rehabilitation with shorter hospital stay.

## **Radiation Oncology**

Being at the forefront of cancer care involves pioneering innovative treatment methods as well as the introduction of technology that aids medical experts. **HCG** has led the pack on both counts by introducing TrueBeam, India's first advanced Radiation Therapy system with multileaf. It delivers precise tumour targeting, while lowering toxicity and improving outcomes. For oncology thought leaders, it allows pioneering new treatment that goes beyond today's clinical norms. For patients, it means the short road to life back as usual.

## **Medical Oncology**

The centre's Medical oncology department is equipped with the facility of (1) Day care chemotherapy centre with specially trained nursing staff (2) High dose chemotherapy (3) Targeted therapy & (4) biological therapy which is now recent development of cancer treatment. This kind of treatment can be given depending on patient needs.

Apart from above services the hospital offers treatment for urogenital cancers, brain tumors, pediatric cancer & musculoskeletal tumors. The hospital has in house facilities for a nutritionist, dietician, physiotherapist & cancer counselors. The hospital excels in nursing care with well trained & experienced nursing staff in critical areas like ICU, OT, OPD & wards.
